

# **JAVA PROGRAMMING ZERO TO HERO**

## **DAY-2 ASSIGNMENT**

```
class sum
{
    public static void main(String args[])
    {
        int x,y,s;
        x=Integer.parseInt(args[0]);
        y=Integer.parseInt(args[1]);
        s=x+y;
        System.out.println("sum of " + x + " and " + y + " is " +s);
    }
}
```
